eMail: ariane.ries@framatome.com

Ariane Ries (42 years old) is Head of Offers and Project Performance for the Business Unit Installed Base of Framatome GmbH. The Business Unit Installed Base is managing for the existing worldwide NPP fleet all operations for maintenance, component replacement, equipment and spare parts, inspection and checks, refueling operations, optimized management of reactor shutdowns for maintenance, chemistry and radiochemistry services, modernisation and upgrading Projects.

Ariane has more than 15 years professional experience in the Nuclear Industry in various fields and positions.

She started her professional carrier at Siemens/KWU in Project controlling for NPP maintenance Projects in Eastern Europe after spending a year at the Fuel Manufacturing facilities in Richland (USA).

She was appointed in 2006 as Project Director Finance for the Large-scale Modernization and Power Upgrade Project in Oskarshamn/Sweden.

From 2010 to 2014 she was leading an international Contract Management team for the New Builds Business Unit in Paris/France related to EPR Construction Projects. She extended her network inside the international Projects and Contract Management community through this 4 years delegation to AREVA in France.

Ariane is experienced in Project Management, Project Controlling, Contract Management, Offer and Project Operations and leading those teams for the Installed Business Unit of Framatome GmbH in Germany at present.
